

**Art White**

**I believe that the City of Belfast should retain its current four constituency districts for the UK House of Commons and the NI Assembly. It is important for Belfast to retain as much political influence as it can. Furthermore, the diversity of political opinions along class and demographic lines can best be reflected by having the greatest possible number of elected representatives. Also, I would hope that the names "West Belfast" and "East Belfast" are retained even in the event that one Seat is removed from the City.**
